Subject: RE: Catchment Structures task # 3309

Hi Ingrid.....I have a Jan 23 deadline for the Crandall perpetual operating trust fund, a Jan 31 deadline for the Tower midterm review, and a March 1 deadline for completely revising the Crandall reclamation plan with the new treatment facility. Also the Division wants a response to the Wildcat wind-blown fines Division Order soon. I will do all I can to work the West Ridge catchment amendment into the mix but until I can clear some of these other items off my plate it is difficult to give you a firm date. I appreciate your understanding. I haven't brushed it off, in fact most of it is completed, and I will try to get it to you as soon as possible. Thanks

Dave

Hi Dave-

I just wanted to follow up with you about the catchment structures amendment. It is important that we include the remaining catchments in West Ridge's Permit area. Please let me know when you plan on responding to the deficiencies which were sent in July. Thanks so much, and let me know if you have any questions.
